

User Guide

For evaluation-form reviewers — a step-by-step walkthrough from opening the website for the first time to confirming your review, written for people who have never used this system.

Important — read this first

This system does not store anyone's real answers. Its only job is to let you preview the evaluation forms before they are used, check that every question is complete and correct, and confirm that you reviewed them. If you accidentally type or tick anything inside a form, do not worry — simply close the tab. Nothing is ever used as real data.

Contents — select a section to jump to it

1. What this system is, and what you need to do
2. Part 1 — Opening a program's review page (steps 1–3)
3. Part 2 — Reviewing and confirming each form (steps 4–8)
4. Terms worth knowing
5. Frequently asked questions & troubleshooting
6. Note for coop-center staff

1. What this system is, and what you need to do

This system holds the evaluation forms and questionnaires for every cooperative-education course at Walailak University. Its single job is to let the people involved preview the forms ahead of time and confirm the questions are complete and correct before the forms go live.

Each program has 3 forms, for 3 different audiences:

- 1 Cooperative Education Performance Evaluation by the Workplace
- 2 Cooperative Education Student Evaluation by the Faculty Advisor
- 3 Post-Placement Student Questionnaire for Cooperative Education

The core question set (the learning outcomes — LOs) is the same across all 3 forms; they differ in who fills them in and in their supporting questions.

Your job in one glance

1. Open the review page for the program you are responsible for (Part 1).
2. View the contents of all 3 forms and read whether the questions are complete, correctly worded, and have the right answer options (Part 2).
3. If everything is correct → press the “Confirm reviewed” button for each form.
4. If you spot an error → do NOT confirm that form. Press “Download” to get its Word file, fix or annotate it, and send the file back to the Cooperative Education Center through the channel you already use (e.g. email or LINE) — reviewers cannot edit questions on the website itself.

There is no login and no sign-up — open the link and start straight away, on a computer or a phone.

2. Part 1 — Opening a program's review page

Everything starts from the system's home page. Follow steps 1–3 in order — it takes less than a minute.

1

Open the home page and click your school

Open the link the Cooperative Education Center sent you. The home page lists every school as a row in a table.

Find the row of the school that owns the program you need to review — if the list is long, type the school name into the “Search schools...” box above the table to filter it down.

Once found, click anywhere on that school's row (the whole row is clickable — note the grey arrow on its right edge).

The screenshot shows a web interface with a search bar at the top left labeled "Search schools...". To the right of the search bar are filters: "All 13", "Needs attention 5", and "Ready 8". Below the search bar is a table with the following columns: SCHOOL, PROGRAMS, AVAILABLE, PENDING, and SCALE STATUS. The table lists 13 schools. The row for "School of Political Science and Public Administration" is highlighted with a red box and a red circle with the number "1" next to it. This row shows 3 programs, all available, 0 pending, and a scale status of "4-level 3" with a sub-status of "Needs descriptions 2". Other rows include "International College", "School of Management", "School of Accountancy and Finance", "School of Law", "School of Science", "School of Engineering and Technology", "School of Liberal Arts", "School of Architecture and Design", "School of Public Health", "School of Informatics", and "School of Agricultural Technology and Food Industry".

SCHOOL	PROGRAMS	AVAILABLE	PENDING	SCALE STATUS
International College	1	1	0	4-level 1
School of Management	4	4	0	4-level 4
School of Accountancy and Finance	3	2	1	4-level 2
School of Law	1	1	0	4-level 1
1 School of Political Science and Public Administration	3	3	0	4-level 3 Needs descriptions 2
School of Science	2	2	0	4-level 2
School of Engineering and Technology	6	6	0	4-level 6
School of Liberal Arts	3	3	0	4-level 3 Needs descriptions 1
School of Architecture and Design	2	1	1	4-level 1
School of Public Health	2	1	1	4-level 1
School of Informatics	5	5	0	4-level 5
School of Agricultural Technology and Food Industry	2	2	0	4-level 2

The home page — the red box marked 1 is the school row to click (this example shows the School of Political Science and Public Administration; yours may differ).

2

Click the program you want to review

The next page lists every program inside that school, with its code, status, and chips showing the 3 forms (Workplace / Advisor / Student).

A green “Available” badge means the program's question set is ready to review. A yellow “Not available” badge means no question set has been loaded yet — contact the staff before reviewing.

Click anywhere on your program's row.

Home > School of Political Science and Public Administration

School of Political Science and Public Administration

3 programs in this school

ไทย EN

Q Search by code or program name...

All 3 Available 3 Pending 0

Click a program to open its review page for all 3 forms

CODE	PROGRAM	STATUS	FORMS
IR	IR	Available	Workplace Advisor Student →
PA	PA	Available	Workplace Advisor Student →
POL	POL	Available	Workplace Advisor Student →

N

The red box marked 2 is the program row to click — the green “Available” badge means its questions are ready to review.

3

The review page — the hub of your work

After clicking a program you arrive at its “Curriculum review” page. The table here has 3 rows = the program's 3 forms.

The left column “Form” shows the form's name and who fills it in (the key word is underlined in bold). The middle “Status” column shows whether it has been reviewed. The right “Actions” column holds every button you will use.

Remember this page — every review task happens right here.

Home > School of Political Science and Public Administration > IR > Curriculum review

Curriculum review

IR

ไทย EN

Review the completeness of all 3 evaluation forms — view the content, download a Word copy, and confirm you have reviewed each form individually.

Form	Status	Actions
Cooperative Education Performance Evaluation by the <u>Workplace</u> Filled in by the host company or the on-site supervisor	● Not reviewed	View Copy link Download Confirm reviewed
Cooperative Education Student Evaluation by the <u>Faculty Advisor</u> Filled in by the faculty advisor who supervises the student	● Not reviewed	View Copy link Download Confirm reviewed
Post-Placement <u>Student</u> Questionnaire for Cooperative Education Filled in by the student after returning from their placement	● Not reviewed	View Copy link Download Confirm reviewed

The review page — its 3 rows are the program's 3 forms. Note the yellow “Not reviewed” badges in the Status column.

3. Part 2 — Reviewing and confirming each form

Work through steps 4–8 one form at a time until all 3 are done. Any order is fine — but all three must be confirmed.

Each form row has 4 buttons. Study the picture and the table below before you start.

What each form's 4 buttons do

Refer to numbers 1–4 in the red boxes of the picture below:

A form's 4 buttons — a row of 3 small buttons on top (1 View · 2 Copy link · 3 Download) and the wide dark button below (4 Confirm reviewed)

1 “View”

Opens the real form on screen — you see exactly what the real respondent will see. Use this button to read and check the content.

2 “Copy link”

Copies that form's link onto your device; the button briefly changes to “Copied!”. Paste it (Ctrl+V, or tap-and-hold → Paste) into an email or chat so someone else can open this exact form directly.

3 “Download”

Saves that form as a Word file (.docx) into your device's Downloads folder — use it to read on paper, or to fix mistakes and send the file back to the coop center.

4 “Confirm reviewed”

The wide dark button — press it only when you have fully reviewed that form and it is correct. A popup asks for your name, email and phone number as proof of review.

What to check while viewing a form

- ✓ The form's title matches the intended audience (Workplace / Faculty Advisor / Student).
- ✓ Every question from the program's source document is present — none missing or duplicated.
- ✓ The wording and spelling are correct and easy to understand.
- ✓ Each question's score options are complete, and each level's description matches the program's rubric.
- ✓ The general-information fields (name, student ID, workplace, etc.) are all present.

4

Press “View” to open a form and read it

Press “View” (the leftmost small button, number 1 in the picture above). The real form opens in the same page — it looks exactly as the real respondent will see it.

The form is split into sections — the numbered circles at the top are the sections. Click any section name to jump straight to it, or use the “Next / Back” buttons at the bottom to walk through them.

You can move between sections freely without filling anything in — and you may type or tick things to see how it behaves; anything you enter is never used as real data.

The View / Edit / Print / Download Word / Edit history toolbar row under the page title is staff tooling — ignore it. When finished, use your browser's back button (top-left arrow) to return to the review page.

The screenshot shows a web interface for a form titled "IR". At the top, there is a breadcrumb trail: "Home > School of Political Science and Public Administration > IR". Below this, the text "3 = ดี (Good)" and "Cooperative Education Performance Evaluation by the Workplace" are visible. A row of buttons includes "View", "Edit", "Print / Save PDF", "Download Word", and "Edit history". On the right, there are language selection buttons for "ไทย" and "EN".

The main content area features a progress bar with two sections: "Learning Outcomes" (35% completed, "Not started") and "Report / Project" (25% completed, "Not started"). To the right of the progress bar, it shows "Total 0 / 60" and "Not started".

Below the progress bar is a horizontal navigation bar with six numbered circles (1 to 6). Each circle is labeled with a section name: "Section 1 General information", "Section 2 Expected skills", "Section 3 Knowledge and skills", "Section 4 Ethics and character", "Section 5 Report / project", and "Section 6 Feedback". A red box highlights these numbered circles. Below this bar, the text "Section 1 of 6" is visible, along with a status indicator "Autosave is ready" and a "Next" button.

The real form — the numbered circles at the top (inside the red box) let you jump to any section instantly without filling anything in.

5

(Optional) Press “Copy link” to share a form's link

This button is optional — use it when you want to send that form's link to someone else (e.g. a colleague) so they can open the exact same form without browsing from the home page.

After you press it, the button briefly changes to “Copied!” with a check mark for about a second — the link is then ready to paste into an email or chat.

Home > School of Political Science and Public Administration > IR > Curriculum review

Curriculum review

Review the completeness of all 3 evaluation forms — view the content, download a Word copy, and confirm you have reviewed each form individually.

Form	Status	Actions
Cooperative Education Performance Evaluation by the <u>Workplace</u> Filled in by the host company or the on-site supervisor	● Not reviewed	View ✓ Copied! Download Confirm reviewed
Cooperative Education Student Evaluation by the <u>Faculty Advisor</u> Filled in by the faculty advisor who supervises the student	● Not reviewed	View Copy link Download Confirm reviewed
Post-Placement <u>Student</u> Questionnaire for Cooperative Education Filled in by the student after returning from their placement	● Not reviewed	View Copy link Download Confirm reviewed

After pressing “Copy link”, the button briefly shows “Copied!” with a check mark as in this picture — the link is ready to paste.

6

Press “Download” when you want the form as a Word file

Press “Download” (the rightmost small button, number 3 in the picture above). A Word file (.docx) is saved automatically into your device's Downloads folder — open it with Microsoft Word or another document app.

The file contains every question of that form — handy for reading on paper, or for fixing mistakes and sending back to the coop center.

Review the completeness of all 3 evaluation forms — view the content, download a Word copy, and confirm you have reviewed each form individually.

Form	Status	Actions
Cooperative Education Performance Evaluation by the <u>Workplace</u> Filled in by the host company or the on-site supervisor	● Not reviewed	View Copied! Download Confirm reviewed
Cooperative Education Student Evaluation by the <u>Faculty Advisor</u> Filled in by the faculty advisor who supervises the student	● Not reviewed	View Copy link Download Confirm reviewed
Post-Placement <u>Student</u> Questionnaire for Cooperative Education Filled in by the student after returning from their placement	● Not reviewed	View Copy link Download Confirm reviewed

The red box is the “Download” button — the .docx file lands in your Downloads folder.

7

Press “Confirm reviewed” once that form is correct

Press the dark “Confirm reviewed” button (the wide button under the small ones, number 4 in the picture above) — a confirmation popup appears in the middle of the screen.

The popup summarizes which form of which program you are confirming. Fill in all 3 fields marked with a red *: “Reviewer's full name”, “Email” and “Phone number”.

Tick the box “I have reviewed this evaluation form and confirm it is complete and correct.” then press the dark “Confirm review” button — if a field is empty or the box is unticked, the button stays pale and cannot be pressed.

If you opened the popup but are not ready to confirm, press “Cancel” or click the dark backdrop to close it — nothing is saved.

Confirm review

Please enter your details and confirm you have reviewed this form for completeness. This is recorded as proof of review.

Form: **Cooperative Education Performance Evaluation by the Workplace**

Program: **IR** IR

Reviewer's full name *

Email *

Phone number *

☐ I have reviewed this evaluation form and confirm it is complete and correct.

Cancel

Confirm review

The “Confirm review” popup — fill the 3 fields marked * and tick the confirmation box before pressing the dark button (shown empty here).

8

Enter your details and press “Confirm review”

Type your real full name, email and a phone number where you can be reached — this is recorded as proof of who reviewed the form.

Once everything is filled and the box is ticked, the “Confirm review” button turns dark and clickable — press it to save.

Confirm review

Please enter your details and confirm you have reviewed this form for completeness. This is recorded as proof of review.

Form: **Cooperative Education Performance Evaluation by the Workplace**

☒ I have reviewed this evaluation form and confirm it is complete and correct.

Cancel

Confirm review

A completed popup — the red box is the “Confirm review” button ready to press (the name and email shown are examples).

9

Check the badge turned to “Reviewed”, then do the next form

After confirming, the popup closes and that form's badge changes from yellow “Not reviewed” to green “Reviewed”, with a small line reading “Reviewed by your name · date time”.

The dark button becomes “Review again” — press it any time to confirm a fresh round (every confirmation is recorded; the latest one is shown).

Repeat steps 4–8 for the remaining 2 forms. When all 3 rows show “Reviewed”, this program's review is complete.

Home > School of Political Science and Public Administration > IR > Curriculum review

Curriculum review

IR

Review the completeness of all 3 evaluation forms — view the content, download a Word copy, and confirm you have reviewed each form individually.

Form	Status	Actions

The status turned to a green “Reviewed” with the reviewer name and time (inside the red box) — repeat until all 3 forms are done.

4. Terms worth knowing

School

A faculty-level unit of Walailak University (e.g. the School of Political Science and Public Administration).

	The home page groups everything by school.
Program	A degree program run by a school (e.g. the Bachelor of Political Science). Each evaluation question set belongs to exactly one program.
Workplace	The company or organisation hosting a student's cooperative-education placement — its on-site supervisor fills in the first form.
Faculty Advisor	The university lecturer who visits and evaluates the student during the placement — they fill in the second form.
Learning Outcomes (LOs)	The set of “what should the student be able to do” questions for each program — the shared core questions appearing in all 3 forms.
Cooperative Education Center	The Center for Cooperative Education and Career Development, Walailak University — the unit that runs this system and receives corrected files back from reviewers.

5. Frequently asked questions & troubleshooting

I accidentally typed or ticked things inside a form — will that data be used?

No — this system never stores anyone's real answers; it exists only to preview the forms. Feel free to type or tick while exploring, then simply close the tab.

What you typed may be remembered on your own device briefly (the system keeps a draft automatically — a feature meant for real respondents later) — but that draft stays on your device only, goes nowhere, and is never used as real evaluation data.

I found a typo, a missing question, or content that differs from the source document — how do I fix it?

Do NOT confirm that form. Press its “Download” button to get the Word file, edit the wording or add comments in the file, then send it back to the Cooperative Education Center through the channel you already use (email/LINE), saying which form of which program it is.

Reviewers cannot edit questions on the website — corrections are made via the Word file only. Once the center updates the system, come back, review again, and then confirm.

I already confirmed but just spotted an error — what now?

Tell the Cooperative Education Center immediately, naming the program and the form — past confirmations are kept as history and cannot be edited or deleted by you.

After the content is fixed, press the “Review again” button to confirm a fresh round — the badge always shows the latest reviewer and time.

How do I know who has already confirmed?

Look under the green “Reviewed” badge in the Status column — there is always a small line reading “Reviewed by name · date time”. A yellow “Not reviewed” badge means nobody has confirmed that form yet.

Do I have to confirm all 3 forms, or can I confirm once for all?

Each form is confirmed separately — all 3 must be done (Workplace / Faculty Advisor / Student). The statuses are independent: confirming one form does not change the other two.

The website shows English — how do I switch to Thai?

Press the “ไทย” button at the top-right of the page — every page has the language switcher. Some programs (e.g. international programs) open in English automatically.

I pressed “Download” but cannot find the file

The file is saved automatically into your device's Downloads folder, named after the form type and program code, ending in .docx — also check your browser's download pop-up at the corner of the window, which lists recently downloaded files.

The “Confirm review” button in the popup stays pale — I cannot press it

That means something is still missing — check that all 3 fields (Reviewer's full name / Email / Phone number) are filled and that the confirmation box is ticked. The email must contain an @ sign.

I pressed the form's submit button and a red warning appeared — did I break something? ^

Nothing is wrong — the submit button is for real respondents, not for reviewers. The warning only says the form is not fully filled. Close the form and press “Confirm reviewed” on the review page as usual.

Do I need an account or a password? ^

No — there is no login. Open the link and start straight away, on a computer or a phone.

6. Note for coop-center staff

This section is for staff who edit question content directly in the system — general reviewers can skip it.

Question sets are edited on each program's edit page (via the edit button on the form page). Pressing “Save changes” opens a popup that asks for name / email / phone plus a confirmation tick before writing to the edit history — it records who made the change.

That popup is a different one from the “Confirm review” popup in this guide — one records who edited, the other records who reviewed. Do not confuse them.
